**Taking great night time photos with the iPhone has been elusive, until now.**

The Ember is the premiere iPhone tool for mobile night photography. Contoured to the shape of the iPhone 5 and 5s, the Ember's back panel array of 56 LEDs and diffuser provide a soft, warm light. Headquartered in the San Francisco Bay Area, Ember provides professional tools to capture the night on mobile devices.

## FEATURES

- Adjustable brightness
- Color filters
- Independent battery
- Long battery life (4+ hours)
- Acts as a case
- Available in black or white
- Compatible with popular iPhone lenses
- Cold shoe mount with tripod adapter for use with other photo or video accessories
